VERTVS ORGANIC TEMPRANILLO CRIANZA

Winemakers: BODEGAS IRANZO

Appellation: D.O. UTIEL - REQUENA

Varietal(s): 100% MONOVARIETAL SPANISH TEMPRANILLO

Production Area:

All of the production is obtained from the Estate FINCA CAÑADA HONDA. The production area includes lime soils which are ideal for obtaining colorful wines. Also the sand textures of these lime soils benefit the ripening of the grapes. The vineyard is situated 800 – 850 meters above sea level with a N / SE orientation resulting in maximum sunlight exposure.

Yield per Vine & Hectare:

The average is 50 Hectolitres per hectare, although it varies depending on the climatic conditions of every year.

Training system:

The majority of the vineyard is managed under the Cordon Royal training system, although the vines are not held. This system enhances the airing of the vines, avoids the emergence of cliptogamic diseases. Also, a shading cover of the vegetation avoids the direct impact of the sun on the vines

Hectares of Production:

62 hectares currently producing /more under development

Vinification:

Only flower must (not pressed) is used for the elaboration of this wine. The fermentation is controlled at a maximum temperature of 28°C. The maceration process lasts 14 days approximately. Scraping and crushing with rubber rollers. Vatting, devatting and malolactic fermentation in December.

Tasting Notes:

"This wine has a layered and vibrant nose of red cranberry, red raspberry, heat, cooked cherries and raisins. In the mouth many of the same flavors are present: raisin pie, cooked cranberries, blueberry hints. The finish seems rather soft, but then Tempranillo's typical tannins get a little grippy. It's ready now but wants savory and even rich foods." - Doug Frost, MS, MW

Conservation Time: 5-7 years from Vintage.

Notes:

Only Indigenous Yeasts used. Suitable for Vegans.

Wine made from USDA National Organic Program Certified Grapes. Certified by ECOCERT. Recognized as Certified Organic by the ORGANISME DE CERTIFICATION QUÉBECVRAI.
